Prepared by: Fortude PVT LTD
Project: ***BERA Dashboard***
QMS No:

1. Enhancement Points

#	Enhancement Points
1	CBU vise segregration with folder view
2	"Successfully uploaded" message should be shown
3	"Successful deleted" message should be shown
4	Scroll down option or Manual page selection
5	Back button option
6	Admin panel to do the administration processes
7	Share location access

1.1. CBU (Customers Business Unit) vise segregration with Folder view

The business has different type of Customer business units as follows.

- PVH
  - Tug
  - North America
- Aritzia
- VS&Co
  - PINK
  - VS
- Lane Bryant
- Other

They need separate folders to upload the documents. This documents need to back up after 1 year.

1.2. "Successfully uploaded" message should be shown.

Need a Pop-Up message

1.3. "Successful deleted" message should be shown.

Need a Pop-Up message

1.4. Scroll down option or Manual page selection.

Need to view the document in a seamless view.

1.5. Back button option.

Need an action button to visit previous pages.

1.6. Admin panel to do the administration processes.

Currently the user creation is done by development end. Therefore Admin panel is needed to handle user creation separately.

1.7. Share Location access.

Users
